

DON'T GET BURNED

We always like to give props to the underdog, and this independent Canadian film is no exception. *Play With Fire* was written, directed, and co-produced by Soren Johnstone with his producing partner Michael Babiarez, using natural light, non-actors, and a minimal set-up. All these seemingly large handicaps actually work in the film's favour to add authenticity and realism to the story, and helped earn them Best Cinematography at the ReelHeART International Film Festival last year. Keep your eyes peeled for an appearance by the late great Josh Evin as he recounts views on life itself.
